My dear Sir:-

Your letter of 25th inst. at hand I am sending you under separate cover a copy of our 1907 Proceedings. I am very sure that a copy was mailed to you some months ago, I remember however that some communication sent you - I think the notice of a meeting - was returned by the Post office, and it is likely that this met the same fate. I am very sorry that you did not get it and am much obliged to you for informing me of it.

I am glad to be able to inform you that our building is entirely paid for. Since the first of the year the Society has received donations of three valuable collections as well as many small gifts - about 5000 pieces in all of which about 700 are gold and over 3000 silver.

Now that the Society has its own fine fire-proof building with ample room

for the arrangement and exhibition of
the collections, we will without doubt
receive many more donations and our
collections grow rapidly. we are now
building two new cabinets that will
have a capacity of about 10,000 coins
each.

I hope that some time you will
get over to New York and be able to look
over the building and collections.

I am sure that you will be pleased
and interested.

With kind regards believe me

Very sincerely yours
